

6.170 Final Project - "Ibetcha"

Thursday, November 20, 2014

Team members: Zulsar Batmunkh, Saadiyah Husnood

Jonathan Lim, Dana Mukusheva

Progress report

Currently our MVP has following features:

- login/sign in (without Venmo)
- logout
- friend each other
- invite friends to use ibetcha
- create bets
- send/accept/reject monitor requests /sends monitor requests when the bet is made./
- checkoff milestones
- update bets and milestones at midnight
- mock money transfer

Our design includes:

- back end API methods
- sign up with passport
- logic to create bets/milestones
- emailing out (invites, reminders)
- cron job
- client-side with all the necessary displayed properly (includes full MVC support)
- /Some of the necessary constraints are not made yet./
- tests
