

## 6.170 Final Project - "Ibetcha"

Thursday, November 13, 2014

Team members: Zulsar Batmunkh, Saadiyah Husnood

Jonathan Lim, Dana Mukusheva

### **Meeting minutes**

1. Discussed design doc and feedback received before the submission. Mentors suggested to restate purpose so they do not repeat each other, relate each concept to the specific purpose, revise our API URLs, elaborate more on the security concerns and indicate the design choices we made (specify which of the potential solutions to the design challenges we picked).
2. Discussed the legal issues with Venmo. We were advised to mock the payment system for the MVP stage, and use Venmo only for the final stage
3. Discussed the overall expectations for the MVP, received a positive feedback on our current progress.
